

## Summit Microelectronics Compliance with REACH

It is Summit's understanding that there are currently no Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) requirements that apply to Summit's products.

Summit's products are articles as defined in REACH Article 3(3). There is no intended release of substances from Summit's products under normal or reasonably foreseeable conditions of use. Therefore, the requirement in REACH Article 7(1)(b) to register substances contained in articles and intended to be released under normal or reasonably foreseeable conditions of use does not apply.

Neither Summit, nor its manufacturing partners, use any SVHC on the current European Chemical Agency's (ECHA) Candidate List in the manufacture of its products and currently no identified SVHCs are contained in Summit's products. Therefore, the requirement in REACH Article 7(2) to notify ECHA if an article contains >0.1 mass % of an SVHC and tonnage exceeds 1 ton per importer per year is not applicable to Summit. Additionally, the REACH Article 33 requirement to provide safe use information to our customers is not applicable to Summit.

We hereby declare that products manufactured and marketed by Summit do not contain substances on the REACH SVHC candidate list, per the table, below in concentrations greater than 0.1% by weight per article.
